

Please join us for the 2010 Lecture.

BCC Space & Astronomy Lecture Series

Friday September 10th at 7pm

BCC Planetarium and Observatory, 1519 Clearlake Road, Cocoa Campus

Lecture: "The View from Mars."

By: Pat Duggins, News Director, Alabama Public Radio

In this lecture:

- Duggins will address the painful impact of the end of the Space Shuttle Program on Florida.
- He will look at the challenges of sending humans to Mars, including a re-writing of what the "Right Stuff" means
- And a review on the debate over life on Mars, and how one scientist claims he solved the mystery in 1975 during Project Viking.

Pat Duggins is news director at Alabama Public Radio. He covered over one hundred space shuttle missions for National Public Radio. The list includes the 1986 Challenger accident, as well as the 2003 loss of Columbia during which he provided three hours of "live" coverage on NPR's Weekend Edition with Scott Simon. Pat's new book is titled "Trailblazing Mars: NASA's Next Giant Leap."

Free lecture and Star Party Hosted by the Brevard Astronomical Society
Seating is Limited

Stellarly Yours,
Prof. Fiorella Terenzi
