

Please join us for the opening premiere lecture of

BREVARD
COMMUNITY COLLEGE

BCC Space and Astronomy Lecture Series

Friday, September 4th at 7 p.m.

**BCC Planetarium and Observatory,
1519 Clearlake Road, Cocoa Campus**

Opening lecture: **“Moon, Mars, and the Stars: the Constellation Program and the Future of Space Exploration”.**

Panelists:

- Robert D. Cabana, Director, NASA Kennedy Space Center
- Russell Romanella, Director, International Space Station and Spacecraft Processing Directorate, NASA Kennedy Space Center
- Jon Cowart, Ares I-X Deputy Mission Manager, NASA Kennedy Space Center

Following the lecture, the BCC Observatory will be open on the rooftop to observe the full moon and the planet Jupiter. Handouts provided by Observatory staff and volunteers will highlight the location of the Apollo landing sites.

Event sponsor: Brevard Community College

All events are FREE and open to the public.
