Instructor: Konstantinos Kavallieratos (CP 326), tel: 348-6034, email: kavallie@fiu.edu
Class website: http://www.fiu.edu/~kavallie/CHM3610.htm  Check the class site frequently for up-to-date calendar, class announcements, and useful links for the class.
Prerequisites: CHM 1045, CHM 1046, CHM 2210, CHM 2211 (with a C or higher).
Class meets on: Mondays, Wednesdays, and Fridays 2.00 p.m. - 2.50 p.m. (PCA 165).
Class starts always on time, and latecomers will not be accepted. Attendance of the lectures is required. The lectures will include some material, which is not in your textbook and will be required for exams.
Textbook: "Descriptive Inorganic, Coordination, and Solid-State Chemistry" by Glen E. Rodgers (2nd Ed. Brooks-Cole), plus handouts provided by instructor.
Office Hours: Mondays and Wednesdays 11.15 a.m.- 12.00 p.m. or by appointment.
Material, Homework and Grading: See below for units to be covered. Homeworks will be assigned for practice on a weekly or bi-weekly basis and will always be due Mondays at 2.00 pm when the class starts. Late homeworks will not be accepted. The grade for the class will be based on two midterm exams (20% each, 40% total), and a cumulative final exam (60%). Homeworks will be discussed in class, but they will not be returned graded. Completion of homeworks will be considered as extra-credit in order to boost your grade to the next one up if you are in the borderline. The exam dates on the calendar should be considered firm, and there are no make-up exams. It is imperative that you show up for class on time. It is strongly recommended to skim through the book in advance in order to familiarize with the material to be covered.
