#### **PRESENTED PAPERS**

Since 1980 I have presented 78 papers at professional meetings—all  
dealing with social contingencies in mental health and illness and  
substance use problems. A total of six (6) additional papers have been  
prepared and are scheduled for presentation at the upcoming meetings of  
the International Stress Conference and the annual meeting of the  
American Public Health Association. A listing of all presented papers is  
available on request.
