

*****Remember these are your raw clicker points; you must divide the given total by 3 to know how many points will be added to one exam. Also, if you did not register your clicker, you will have to look up the clicker ID to know how many points you have earned. You will then need to let me know that those points are yours, and you will need to show me the clicker so that I can verify. Anyone who borrowed a clicker must return the clicker on exam day, or I will not grade your final exam.
