

How to Turn in GIS Assignments

(1) Name each assignment, for example, YourName_Assign1-1.jpg, YourName_Assign1-2.jpg, YourName_Assign.doc, etc.

(2) Saving maps:

- *Always store relative path names:* File>Map Properties>Data Source Options>Store relative path names>OK
- *Export and save each map as a jpeg or pdf file:* File>Export Map>Save as: YourName_Assign1.jpg or YourName_Assign1.pdf

(3) Compress each file as into one zipped folder, naming it, for example, YourName_Assn1.

(4) Email me an attachment containing the zipped folder, *with a subject line that says* GIS YourName_Assn1.zip.
